WELCOME TO CAM CADDIE VIDEO RIGS….

- DSLR, Mini DV, GoPro Hero, or even an iPhone. Transform the camera you already own into a professional camera rig by attaching a countless number of accessories into endless configurations. Its patented design displaces the weight of your gear enabling a stable support rig that dampens movement while shooting. The Cam Caddie Scorpion EX is constructed from a lightweight composite with a custom formulated polymer grip providing a stable and solid platform to comfortably hold and maneuver the camera.
- Versatile camera support system for DSLR cameras with movie recording abilities, and small camcorders
- Made from a lightweight composite material with polymer grip
- Provides a comfortable and solid platform
- Offers stable support, dampening jerky movements like a camera stabilizer or jib arm
- Ideal for capturing action events such as skateboarding, snowboarding, sports, corporate events, weddings, walkthroughs, etc
- Included accessory shoe allows you mount accessories like lite panels, microphones, external monitors, lavaliere receivers, XLR input boxes to the handle
- Shoe can be adjusted to maximize weight distribution, thus ensuring enhanced operability
- The shoe's quick release attachment eases setting up your support system
- Multiple accessory shoes can be used with the Scorpion EX stabilizing handle
- ¼-20 threaded feet can attach the Scorpion EX to the cheese plate (not included), which facilitates easy switching between handheld and tripod-mounted shotsDSLRs and point-and-shoot cameras
- Allows for quick attachment of a wide range of accessories
- Composite thermoplastic with a custom polymer grip
